Hardy Plants

Landscape Gardening

This price list consists of revised prices for 1923. Many are lower than the prices in our catalog. You will find a few varieties of plants included in this list that are not in the catalog. Description will be put with these.

We prepay charges on all goods east of the Mississippi except Evergreens and Shrubs. The Evergreen Trees are burlapped and boxed free of charge, but the buyer must pay express charges.

We offer free one Dahlia Bulb "Millionaire" with every order of \$25 or more. This is one of the best modern Dahlia measuring from 7-12 inches across retailing at \$2.50 each.

HARDY PERENNIALS

"YE OLDE FASHIONED GARDEN PLANTS"

Prices—25c each \$2.50 per doz. \$18.00 per hundred unless otherwise noted

HEDGE PLANTS

Barberry (Japanese)

Thunbergii. We grow many thousand Barberries as they are at the present time in great demand as being very useful for hedges and extremely hardy. We offer nothing but heavy 2 and 3 year stock. We make you the following offer which is probably better than anyone can make.

	each	doz.	hundred
12-18 in.	.25	2.50	18.00
18-24 in.	.35	3.50	28.00

California Privet.

This is probably the most common hedge plant and is no doubt well known as being one of the best shrubs for hedges. It has oval glossy green foliage and when in good condition is nearly as handsome as the tender box-wood of the south. Will make a splendid high or low hedge as desired. All our stock is quickly grown, therefore healthy.

12-18 in.	.70	5.00
18-24 in.	1.00	7.00
2-3 ft.	1.25	9.00

ROSES (HARDY HYBRID TEAS)

These Roses have been picked out from a large collection of varieties and "The Clinton Nurseries" have found these to be the best varieties. They are sometimes called "everblooming or monthly Roses" for the simple reason they are never without bloom from June until frost.

The following varieties of Roses are \$1.00 each, \$10.00 per doz. unless otherwise noted.

Duchess of Wellington—Saffron yellow stained with rich crimson, this rather new well known variety continually in bloom.

Frau Karl Druschki—(White American Beauty) The best snow white, free blooming hybrid perpetual rose in existence. Of magnificent growth. It has the vigor and hardness of an oak. The flowers are immense in size, full deep and double, with massive saucer shaped petals.

General MacArthur—Bright scarlet red, very free bloomer. It is no doubt the most popular red rose in existence.

Jonkheer J. L. Mock—Called by some the new La France, which seems to fit the rose very aptly. A big producer of high grade flowers on long strong stems. It is a strong growing variety and does well either on own root or grafted, the grafted plants being superior. At its best in mid-summer.

Killarney Brilliant—By selection, Killarney Brilliant has come into its own as the best of the pink sports of Killarney. It is deeper in color and fully as strong and vigorous from selected stock. It is the best dark pink rose we have for general growing.

Lady Alice Stanley—Deep clear rose pink, very double flowers that open perfectly. It is a garden rose of great value. It is of easy habit, grows freely, and flowers well, it does not mildew easily and can be recommended to the private grower.

La France—Delicate silvery rose; very large and full; and almost constant bloomer; equal and delicacy to a tea rose; the most pleasing fragrance of all roses, always a moderate grower, but most desirable.

Mme. Edouard Herriot—Coral red shaded with yellow. This combination of color makes this rose very beautiful. There are always four or five buds out at the same time.

Mme. Ravary—Rich orange yellow. This rose is very necessary in bedding roses as it has a most distinct form of a tea rose.

\$1.25 each \$12.00 per doz.

Mrs. Aaron Ward—This Indian yellow bud changing color with the expanding flower is a universal favorite. Wonderfully free-flowering during the whole summer.

\$1.25 each \$12.00 per doz.

Ophelia—Salmon flesh pink in color, shading to yellow at the base of the petals in the partly opened flower, and is very attractive. The real charm lies in the open flower which is to the rose lover perfection in form and color. It is of easy habit, grows well, and produces well.

Red Radiance—Dazzling crimson scarlet. An erect strong growing rose producing an abundance of blossoms. As its name suggests it is radiantly beautiful.

\$1.25 each \$12.00 per doz.

Gruss an Teplitz—We especially recommend this as a bedding rose. Continually in bloom until November. Brilliant deep red in color with rich velvety sheen. Very fragrant.

Sunburst—Long pointed buds that open perfectly into a sunburst of deep golden yellow, it is the best description we can make of this wonderful rose, fragrant.

\$1.25 each \$12.00 per doz.

RAMBLER ROSES

Dorothy Perkins—The ever popular Dorothy Perkins is one of the best and hardiest of Ramblers and lives through our northern winters almost without exception. Pink clusters of very double flowers.

50c each \$4.50 per ten

Excelsior—A red flowered member of the Perkins family, sharing in their hardiness and vigor, brilliant double flowers.

50c each \$4.50 per ten

White Dorothy Perkins—White variety completes the trio. Pure white flowers in dense clusters.

50c each \$4.50 per ten

Crimson Rambler—The most popular of Ramblers. Masses of double crimson flowers on long heavy canes.

60c each \$5.50 per ten

Yellow Rambler—The hardiest yellow climbing rose yet introduced, very fragrant and very vigorous grower, a worthy companion to the wonderful crimson Rambler.

60c each \$5.50 per ten

Dr. Van Fleet—A comparatively new climber already very popular flower like miniature June roses, flesh pink, deepening in the center; blooms when wide open measuring four inches across.

75c each \$7.00 per ten

EVERGREEN TREES

Prices per dozen ten times single price.

Juniperus Sabina	each
Dark green, graceful in form, dwarf. Good for foundation plantings.	
18-24 in. spread	2.50
2-3 ft. spread	3.50
Juniperus Virginiana (Red Cedar)	
Tall, dense, columnar in habit. Dark green. Valuable for landscape planting. Requires great care in planting.	
2-3 ft.	2.00
3-4 ft.	3.00
Picea (Spruce)	
Colorado Blue Spruce —Hardy, symmetrical. For useful as a specimen. Blue, green.	
2-3 ft.	3.00
3-4 ft.	4.00
Picea Norway Spruce.	
Rapid growing tree, use for wind breaks. Long pendulous branches. Dark green.	
2-3 ft.	2.00
3-4 ft.	3.00
Picea Koster's Blue.	
The bluest of blue spruces.	
2 ft.	6.00
2 1/2 ft.	8.00
3 ft.	9.00
Douglas Fir.	
Beautiful soft dark green foliage.	
2-3 ft.	2.75
3-4 ft.	3.50
Pinus Austriaca (Austrian Pine)	
Quick grower and easy to transplant. Fine ornamental and very useful for reclaiming, abandoned or poor soils. Pale yellow brown cones.	
2-3 ft.	2.50
3-4 ft.	3.50
Pinus Montanus (Mugho Pine)	
Dwarf. Slow growing, compact and neat in habit; very hardy. Evergreen plantings and Rockery. Will stand clipping.	
2 ft. spread	2.00
3 ft. spread	3.00
4 ft. spread	4.00
Pinus strobus (White Pine)	
Native Evergreen. Large dark green needles.	
2-3 ft.	1.00
3-4 ft.	2.50
4-5 ft.	3.50
Retinispora	
Filifera. Very useful evergreen for foundation plantings. Foliage dark green.	
8-12 in.	.75
12-18 in.	2.00
18-24 in.	2.50
2-2 1/2 ft.	3.50
2 1/2-3 ft.	4.50

Retinispora

Filifera Aurea. Same description as the above only this species of evergreen has golden leaves.

8-12 in.	1.00
12-18 in.	2.00
18-24 in.	2.50
2-2 1/2 ft.	3.50
2 1/2-3 ft.	5.00

Retinispora

Pisifera. Quicker growing than the *plumosa* and is pyramidal shape. Stands shearing. Very popular for foundation plantings.

8-12 in.	.75
12-18 in.	2.00
18-24 in.	2.50
2-2 1/2 ft.	3.50
2 1/2-3 ft.	4.50

Retinispora Pisifera Aurea.

Same description as the above except that its foliage is golden.

12-18 in.	2.00
18-24 in.	2.50
2-2 1/2 ft.	3.50
2 1/2-3 ft.	5.00

Retinispora Plumosa.

An exceedingly handsome small evergreen from Japan with a feathery light green foliage.

8-12 in.	.75
12-18 in.	2.00
18-24 in.	2.50
2-2 1/2 ft.	3.50
2 1/2-3 ft.	5.00

Retinispora Plumosa Aurea.

Like the preceding, a plant of great beauty, foliage soft plume like, of a golden yellow color, close and compact habit, should be in every amateur collection. Same price as the above.

Retinispora Obtuso.

One of the finest of the family in showy arrangement of foliage, dwarf dense slow growing.

8-12 in.	.75
12-18 in.	2.00
18-24 in.	2.50

Thuja (Arbor Vitae) American.

Fine for hedges or specimen planting. Becomes a broad dense pyramid, the bright green foliage turning bronze in winter.

12 in.	.60
12-18 in.	1.00
18-24 in.	2.00
2-3 ft.	2.50

Thuja Pyramidalis.

Of narrow columnar form, much used in formal gardens and where space is very limited and screen effect is desired.

2 ft.	2.00
2 1/2 ft.	2.50
3 ft.	3.00

Thuja Globosa Dwarf.

Round form, very useful for formal plantings. Dark green foliage.

12 in.	1.50
15 in.	2.00
18 in.	2.50

Thuja Siberian.

Dense pyramidal form with stout branchlets, bright green foliage of steelish cast.

12 in.	1.50
18 in.	2.00
24 in.	2.50

Tsuga Common Hemlock.

Our beautiful common Hemlock, and one of the most conspicuous of our Eastern Mountain conifers. Does well either in partial shade or in the open and can be kept to any desired size by shearing.

2-3 ft.	2.00
3-3 1/2 ft.	2.50
4 ft.	3.00

NUT TREES

Same prices as are listed in the catalog.

Our patrons will greatly oblige us if they will use the enclosed order blank when making out their order.
